

DANIELSON AND PUTNAM NEWS

DANIELSON

The body of Cyrus Martin, 45, was found floating in the Amuneg river, early Thursday afternoon, by Chief John McGarland, to whom Martin had been reported missing and who was conducting a search for the man when the body was discovered.

Dr. George M. Burroughs, medical examiner, was called and viewed the body after it was taken from the water and gave permission for its removal to the undertaker. The cause of death was given as the cause of death. It is believed Mr. Martin fell into the river while walking along the embankment, three weeks ago last Wednesday night.

He has been missing since that time. That evening he visited at the home of William Long on Water street and left after a time, saying that he was going after something to smoke. No one has reported to have seen him since he left the Long home and it is believed that he fell into the river within a short time after leaving there.

Mr. Martin had lived in Danielson for some time and had been employed as a teamster and laborer. Charles Martin, Byron Martin and William Martin, the latter named of Norwich, are brothers of the deceased.

Witter Brothers, auctioneers, will sell for a well known wood and coal company of this state all of their horses, wagons, harnesses, etc., at a public auction, at the rear of their auction rooms, 42 Main street, Danielson, on Sat., April 2, at 10 o'clock a. m. Read ad on auction page of this paper.

Mrs. Caroline Shepard, 55, was found dead in bed at her home in Ballouville Thursday morning. Dr. George M. Burroughs, medical examiner, who viewed the body gave heart disease as the cause of death.

Mrs. Shepard was apparently in her usual health when she retired Wednesday evening. Thursday morning when her little daughter, who had been sleeping with her, tried to awaken her she received no response. It is believed that Mrs. Shepard died some time after midnight or shortly thereafter.

Mrs. Shepard, a widow, formerly lived in Putnam and came to Ballouville about two and a half years ago. She leaves two sons, Fred and Arthur, and three daughters, Mrs. Rose Levench, Cordella and Ora, all residents in Ballouville. The corpse of the last named, who is a resident of Putnam.

Chairman Henry P. Duboc, who is directing the drive of the American committee fund for relief in Ireland said Thursday afternoon that he was highly pleased with first reports received from the canvassers, who went at their work with enthusiasm Thursday morning. The first day's reports were so encouraging as to indicate that the town of Killingly will turn in at least \$1,000. The first big boost for the fund came from Dayville, where \$120 had been collected was turned in. Chairman Duboc was also encouraged by the statement of one physician, who gave a personal donation, that the physicians of Danielson and other parts of Killingly are to send a check as a body.

Canvassers were a bit timid over soliciting quickly gained confidence in discovering how pleasantly they were received in practically all quarters and the first hour of work demonstrated to them that the heart of the people responds as quickly and generously to this urgent need as to many others of a similar nature that have preceded it.

The canvass will continue until the town has been thoroughly covered. Mr. Duboc said Thursday afternoon that anyone who desires to give and who is not approached by the canvassers may send their contributions direct to Clifford H. Starkweather, treasurer of the local committee, at the Danielson Trust company.

Mrs. M. A. Shumway refused the theory Thursday that only the women of the borough are in favor of saving the row of trees at the south side of Davis park. Mrs. Shumway named a score of well known men who are opposed to the cutting of the trees, and mentioned, incidentally, that a petition that is to be presented to the selectmen and which opposes the tree removal plan bears 127 signatures the last time she saw it, which was several days ago, and likely many more by this time. Many who have signed the petition are men.

Mrs. Shumway pointed out that if Reynolds street is too narrow to safely bear the motor traffic that will use it when the state highway line to the east is completed it is not necessary to sacrifice the trees to get a desired result—space for traffic—for this can be achieved by building another street just inside the row of impressive maples and getting a boulevard effect and make the present Reynolds street that with proposed street each one-way thoroughfare.

Evidently the selectmen are in for a lively time at the hearing set to discuss the matter of removing the trees. The opposition to removing the trees is going strong.

Be Sure It's a Willard Battery

Make sure of that, and you're sure of full value for every battery dollar.

The Willard Threaded Rubber Battery brings added savings because it does away with wood-separator replacement expense. Threaded Rubber Insulation outlasts the plates. It doesn't warp, puncture, carbonize or crack.

We're headquarters for the Willard Threaded Rubber Battery. We give authorized Willard Service. Drive around. Let's get acquainted.

PUTNAM

The accidental omission of the word "not" from the item that appeared in this column Thursday morning made it appear that Dr. James P. McKenna of Providence pleaded guilty to a charge against him in the Putnam city court. The doctor pleaded not guilty and was found not guilty. Dr. McKenna seeks damages of \$50,000 and not \$5,000 as stated Thursday.

In the superior court here Thursday morning, James James H. Webb granted a decree of divorce to Wayland Corbin of the town of Woodstock from Frances Corbin and gave the plaintiff custody of the children born of the children born of the marriage. The divorce was the outcome of Mrs. Corbin's departure from Woodstock in November, 1918, and the subsequent finding of her at Newburgh, N. Y., where she was living under such relations with a colored man as to result in the divorce action completed on Thursday.

The Memorial day committee of American Mayotte post, American Legion, has voted to invite each patriotic body and fraternal organization to send a delegate to represent it on an enlarged committee that is to be created to take charge of the Memorial day exercises. All members of the former G. A. R. post here are also named as members of the committee. Also added to the committee are Representative Luther M. Keith, Rev. Charles F. Bodard and Sup't. William L. MacDonald of Putnam's schools. The committee of the post is hoping for the hearty co-operation of patriotic and fraternal societies in making the observance of Memorial day more impressive than ever.

Delphus Bosquet is another evening school pupil who has come to the front in his studies. He has received a certificate of progress in typewriting. His record, after only 65 hours of practice, was 26 words a minute and with only one error. Miss Anna A. Gallant is the teacher in charge of the commercial department of the evening school.

The body of Mrs. Irene Marie Mason, who died at the Day-Kimball hospital here, was taken to Danielson, her home, in charge of Undertaker A. F. Wood. Mrs. Mason, who was 25 years of age, was seriously ill when brought to the hospital and lived only a few hours after her arrival there.

A big motor-truck bound from Worcester to Norwich with a load of furniture was destroyed by fire while on the trip and at a point between Webster and Willimantic.

Annual reports of County Agent F. L. Davis, and Home Demonstration Agent Miss Flora Miller, are contained in booklets issued this week by the Windham County Farmers' association. Any person who may be possessed of the idea that the farmers' organization is merely the medium for experiment with new fangled ideas and theories will quickly have this impression corrected by a study of what the association has accomplished during 1920. The scope of the work and the successes achieved will surprise the average person who is not familiar with the activities of the association. The work carried on covered about every nook and corner of Windham county where there is any real active agriculture. Agent Davis visited 234 farmers on their farms and made a total of 471 farm visits. Office consultations relative to association work numbered 261. He spent 154 days in the field, 83 days in the office. Sixty-five farmers attended institutes at which much knowledge of practical value was obtained. At the farmers' meetings held during the year the total attendance was 1210. From the office of the association in this city 15,449 letters and circulars were sent out. Exhibits were made at two fairs by the association.

The work of the association in the field is practically all embracing as to agriculture and its kindred lines of endeavor. As County Agent Davis sums up the work in his report: Last year's projects were planned for the most part as continuous projects, with the idea of constructing a permanent agricultural benefit.

For example, the Guernsey field trials have resulted in a county Guernsey organization. The orchard management demonstrations are a nucleus that will be a strong supporter of the county fruit committee that has been appointed. In a like manner the poultry management demonstrations are a strong nucleus to develop a county poultry programme. The county poultry committee has been appointed, and will have this organization based in the development of their programme. Speaking for the association, I believe it is the desire to do.

Mrs. Irene Marie Mason, 22, died Wednesday at the Day-Kimball hospital in Putnam. Mrs. Mason was the wife of Byron Mason of Railroad street. She was born in Hampton a daughter of Mr. and Mrs. Charles O. Flitts and lived there for years. She leaves her husband and a daughter, Frances, aged 2 years, and her father and mother. The body was taken in charge by Undertaker A. F. Wood, and is now at the home of Mr. and Mrs. Alfred Mason, of Maple street.

Miss Alice Morissette, teacher at a school in Thompsonville, is spending the Easter recess at her home near Wauregan.

Game Warden Harry E. Battey and Officer Christopher Andrews put in a busy day Thursday keeping fishermen away from trout brooks. Two men were apprehended in Thompson being in the Munyan brook, but they had no trout and claimed to be fishing for trout. They were warned against taking trout. But were not arrested.

Miss Dorothy Bundy returned Wednesday to her school work at Brown university, Providence.

Miss Maud Healey is at home for the Easter vacation.

Mr. and Mrs. E. Elmer Cortis and daughter spent the week end with relatives in Providence.

Mrs. George Lyon was in Webster for Easter.

Mr. and Mrs. L. J. Leavitt have moved into the house in the village formerly owned by Mrs. Matilda Morse.

Putnam Motor Mart, Inc.

ANNOUNCES AN

APRIL CLEARANCE SALE

Selling Our Entire Stock of Tires, Tubes and Accessories

AT UNHEARD OF PRICES

Never before have automobile owners of this vicinity witnessed seasonable auto supplies sold at greatly reduced prices at the beginning of the automobile season. We have decided to conduct primarily an AUTOMOBILE SALES AND SERVICE BUSINESS and the selling of automobile tires and accessories as a secondary matter. We do not believe that it is possible nor practical to conduct both lines successfully and we have chosen ONE.

We wish to devote our energies and our organization mainly to the sale of Studebaker and Chevrolet cars and Brockway trucks, and to render service to owners of these motor cars. We are therefore placing our ENTIRE STOCK OF HIGH-GRADE STANDARD MAKES OF TIRES, TUBES AND ACCESSORIES on sale and MARKING THEM AT PRICES THAT ARE BOUND TO ATTRACT THE ATTENTION OF ALL AUTO OWNERS.

REMEMBER MR. AUTO OWNER this is the BEGINNING of the automobile season and you are therefore in a position to buy more liberally than if you were buying at the END of the season. It will double the buying power of every dollar which you will spend with us now. Most of the goods listed below are priced regardless of cost. Courtesy to the manufacturers does not permit us to name the makes of tires in this advertisement, as we are offering them at prices much below the established list price. They are, however, all FIRSTS, GUARANTEED, of STANDARD MAKES, and are being widely used by most of the automobile owners.

New Styles and
Leathers for
Spring Wear.

"Comfort First" is the first requisite in Men's Shoes.

Nothing so disturbs a man as an ill fitting shoe.

You can buy real leather shoes here, with Goodyear welts, as low as

\$5.85 and up to \$9.50

If for any reason you've bought any near leather shoes—you will appreciate this display of real leather shoes.
